

Sports Anglers Dedicated to Restoring and Enhancing Salmon, Trout and Steelhead Populations and Their Habitats for Present and Future

June '14

Volume 1.7

ITS A

BAR-B-QUE

Sandy Chapter Annual Family Picnic

Saturday, July 26th at Norm and Joli Ritchie's Back Yard

Its not too late to sign up for the picnic! We need an accurate head-count to know how much food to purchase. If you were not able to sign up at the chapter meeting

please call before Monday, July 21st.

We will be providing the traditional salmon, burgers, and hot dogs, but what made the meal a real success last year was the pot luck food-side dishes, salads, and desserts. The chapter has many members with real talent in the kitchen! Of course we also provide various sodas, water, and coffee.

Everyone can expect a great time with a barbecue on the patio and

plenty of relaxation and fellowship with good friends and family. There may be bingo, door prizes, and kids games depending on interest and participation.

The Ritchie home is centrally located for the Sandy Chapter at 2834 SE 166th Ave., Portland, OR 97236.

To sign up or if you have any questions or suggestions call Joli Ritchie at 503-760-5551. They are frequently out of the house so please leave a message.

Newsletter Submission Deadline

Next to the last Wednesday of each month.

Send your stories, pictures, tips to:
dough@leewens.com

Please include "Newsletter" in the subject line.

Your submission should include:
names/date/what you were
fishing for/what you were fishing
with/where you were fishing (un-
less it is top secret!) in the photo

SO LITTLE TIME SO MANY FISH
><))))">

Better Fish Pictures

1. Remove your sunglasses.
2. Move the hat to keep shadow off face..
3. Sun should be behind the camera.
4. Clean the blood off the fish.
5. Rotate the fish to make it shine in the camera
6. Smile, you just caught a fish.
7. Portrait pictures work better on the cover of Steelheader

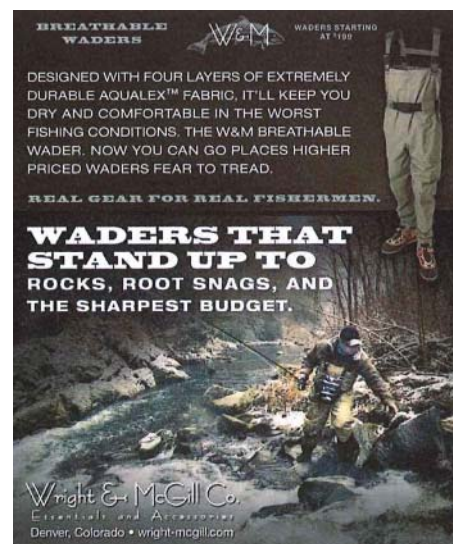

Wild and Scenic...
Upper Sandy River!
Only 45 minutes from Portland

Coastal Rivers now
and the Sandy River in January
10% of all fees will be donated to the Sandy Steelhead-
ers if booked by members or their referrals

How to be Published in the Newsletter

1. Recognize the Publication Date is the last Wednesday of the Month.
2. Therefore the Cutoff Date is the next to last Wednesday of the Month.
3. Write your article using Word Software
4. Make the Title font at 16.
5. Make the Body font at 12.
6. Make you sentences complete, with punctuation.
7. The Publisher will cut & paste your article, not re-write it.
8. Do not sentences 4 to 5 lines, make each paragraph 4 to 5 lines.
9. E-mail the Word file to the Editor with Newsletter in the Subject line.
10. Include a By Line, Your Name, no anonymous authors
11. A one page article is 250 – 300 words. There is a counter at the lower left corner on your word software.
12. Pictures will enhance readability.

Tip:

The best articles are written right after the event.

New Board Meeting Location

We will meet at the Glenn Otto Park, Cox building at 6:30 on Wed July 9th.

Mark will have an offering(s) from his kitchen for under \$10

We should RSVP to keep his cost contained.

I will get the specifics and keep the headcount, so **RSVP** me at
dough@leewens.com

I don't expect everyone to like the move, but is beats competing with a door & kids.

Doug

Today Before
Tomorrow Becomes Yesterday**

Why yes, the Sandy River Spring Chinook Classic was my first rodeo

Why yes, the Classic was my first rodeo...I mean fishing tournament. Well if you don't count the spectacle of Coronas which is the Bisbee's Black and Blue in Los Cabos, Mexico. They can get some pretty big fish-marlin-so I was told and shown in pictures. No fish were legally landed the day I went so the winners from the day before won again! Great fun and lots of cash.

Well I have to say last weekend (May 31st) was a bit different. For starters the music was way better. And the burgers were terrific. Like old times, wrapped the way a burger should be. There was beer but the event seemed fueled more by the community of anglers. There were many more fish (OK, many is pushing it), and they were somewhat smaller than the pictures I saw in Mexico. I had the great pleasure to sell raffle tickets that day to so many generous, hopeful folks. Without Doug's raffle ticket counter we would have been sunk! What a grand invention! It made it so much easier to count out 150 tickets!

All in all I had a great time. I met welcoming folks who weren't at all put off by my lack of fishing ability and were willing to help me learn. It was everything I had hoped for.

Check Twice for Motorcycles

It is unfortunate for those of us who ride, we are injured or worse because many people do not look twice for motorcycles. Not knowing what is going on around you while driving can injure others.

During good weather particularly, double check clearances when changing lanes, and if a motorcycle is behind you slow gradually, do not anchor the brakes. Remember cycles cannot stop as fast as a car or truck, and cutting in front of them, then abruptly braking is extremely dangerous for the person on the bike.

Unfortunately, this is what happened to me a couple weeks ago. The person had to be in the right lane and at the last minute cut me off and jammed on the brakes. I was able to slow to about 35 mph instead of 55 but still hit the person catapulting me through the air. I have 2 broken ribs, badly bruised heart and a concussion all because someone was not paying attention.

Please get in the habit to Check twice for motorcycles

WARNING FISH FEVER

Very Contagious To Adults

Symptoms Include: Inability to do any work at home or office, continual complaint as to the need for relaxation and the need to be near water. Patient is sometimes deaf to spouse, boss and children. No self control when it comes to spending time and money on fishing related items. Constantly mumbles something about the one that got away.

No Known Cure!

Treatment: Loved ones should help victims by supporting their habit and encourage them to go fishing often as possible

Disease is Terminal!

The steelhead clinic our chapter did at Camp Angelo on April 5th was very well received by the students and our partners in this effort, ODFW. Both were quite impressed with the excellent instruction offered by our presenters and the helpfulness of our members. The lunch was popular too. I certainly agree! ODFW contacted Doug Briggs and myself, expressing an interest in doing more clinics. We made agreement with them to do the following clinics-

Saturday August 9th, 2014 - 9 AM - 5:30 PM Fall Salmon

Saturday Sept. 13th, 2014 - 9 AM - 5:30 PM Winter Steelhead

Saturday Feb. 7th, 2015 - 9 AM - 5:30 PM Spring Chinook

Saturday May 9th, 2015 - 9 AM - 5:30 PM Summer Steelhead

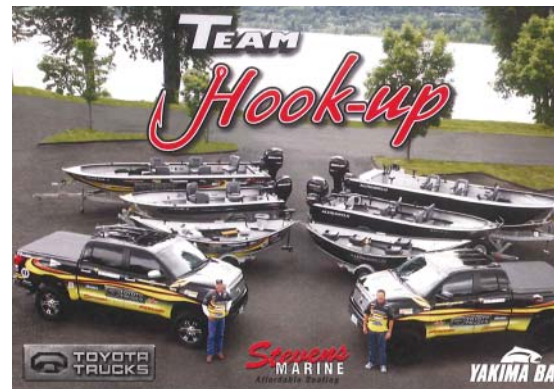

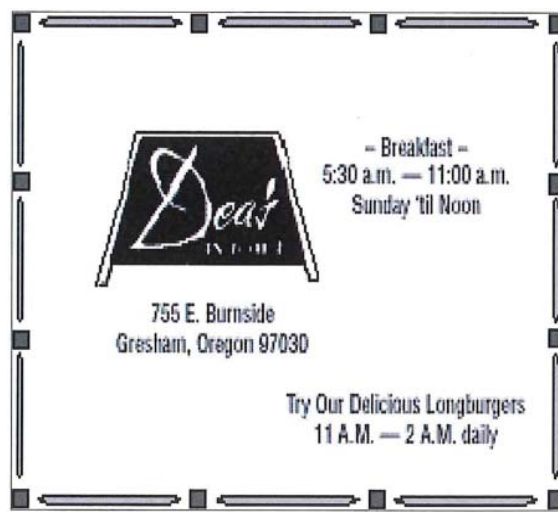

All clinics will be held at our regular meeting place, the Sam Cox Building in Glenn Otto Park.

These clinics will be a bit longer than the April clinic allowing more "hands on" time to learn the knots and rigging methods. A great new feature is that as part of the fee paid to register for the class the students will receive a one year membership to the NW Steelheaders!

These clinics represent a significant new way of recruiting members, and providing angling instruction to interested people. Let me encourage all members to volunteer to help out in putting on the clinics. As a volunteer you get to be at the class for no charge, in exchange for helping someone new learn more about fishing. Hey, I learned a new trick or two myself!

COASTAL MULTISPECIES PLAN APPROVED BY COMMISSION

In last month's newsletter we summarized what the Oregon Coastal Multispecies Conservation & Management Plan is and why it was initiated. On Friday, June 6th, the Oregon Fish & Wildlife Commission voted unanimously to pass the proposal submitted to them by the ODFW.

You may visit their website at: http://www.dfw.state.or.us/fish/CRP/coastal_multispecies.asp to review the documents submitted to support this plan. In broad strokes, this plan will guide hatchery practices and wild emphasis areas for anadromous salmonids on the Oregon coast from Cape Blanco to Seaside for the next 12 years. Sev-

eral life cycles are needed before program assessment can be initiated.

It is necessary to have hatchery plans in effect and adhered to in order to minimize chances for litigation. This program should (but most likely won't) comfort both consumptive fishers and wild fish proponents; because it manages 50 basins overall, 25 for hatchery production and harvest, and 25 for wild fish emphasis and non-retention. HGMP's (Hatchery Genetic Management Plans) will now be constructed to comply with the CMP.

This is a unique plan, and Oregon has a unique salmonid resource on the coast. We have several healthy runs of wild fish which will be maintained. And we have several basins where hatchery stock is comingled with wild stock,

and these basins will continue to provide consumptive angling opportunities. No other coastal state can boast such robust wild stocks and none other have such a plan in place.

Numerous stakeholders on both sides of the wild/hatchery debate gave valuable input throughout this process, and their concerns were respected and helped inform the final Plan. Because the Plan lays out a path that protects both harvest and non retention, we need to be diligent from this point on to assure compliance is enforced in order to protect both side's interests.
