### Special Thanks

It's only right that we take a moment to thank Kathryn Israelson for the work she has put in for several months now on our chapter newsletter. Its appearance has greatly improved and has been done on time each month. It's not the only thing she does for the chapter either...as those of you who have sampled the great lunch she and Art prepare for everyone at our fishing Workshops!

Thanks Kathryn for a job well done.

#### Introducing Patti Snyder- Our new Newspaper Editor

Patti Snyder is a new member with our chapter, joining at our July 23rd Steelhead Workshop in Oxbow Park. She contacted me and said she wanted to meet chapter members and be more involved with the chapter. After finding out she's a web page designer by profession I got her to assume the position of newsletter editor.

So from now on send any materials for the chapter newsletter to her at [snyderscuba@gmail.com](mailto:snyderscuba@gmail.com).

\*Deadline for all submissions will be the Wednesday two weeks past the regular chapter monthly meeting. (Nov 21)

Patti will also be at each monthly meeting chairing a new members meet-and-go-fishing function we're calling "Hook Up Corner" look for her back at the table near the refreshments.

### Hook Up Corner

Most people joining the chapter to learn about fishing, make fishing friends and go fish with them. Everything else, all the forms of volunteering on worthwhile projects, will take place once that basic desire is met. It's hard to break into existing circles of fishing buddies as a new person, or even find a good fishing match as an existing member.

So we are starting a new feature for our members to help with that. Patti Snyder will be seated at a table back by the refreshments with two large poster boards - one for boat fishing trips, one for bank fishing trips- and slips of paper for your name, contact info and type of trip you want to do. Fill out the slip and tape it to the appropriate board. Note other folks there looking for the same thing on a slip of paper and contact them. The contacting part is entirely on you...

We'd appreciate hearing about how this is working so we can fine tune this approach, so let us know at future chapter meetings.

### The Fish Report

As an organization whose members like to fish, it's normal for them to be looking for basic information about what's going on, methods and other useful items.

We all learned from more knowledgeable anglers when we started out, and in fact, still do given the wide range of options available in this area. So I am starting a new feature for our newsletter. Its purpose is to share information about places, methods, and conditions about local fishing for our members.

I don't expect some description of your "secret spot" (although I doubt such places exist) but rather some information that gives a basic and complete picture someone might use to plan a trip. Example - "I fished in Oxbow Park with bobber and jig, and found the fish concentrating in the deeper spots. I caught one with a pink and red marabou jig."

There, that didn't hurt so much did it? It would really help people just starting out or new to the area.

Send me your items in ( MS WORD and any pics in JPEG format please ) to - [palmerlarryd@yahoo.com](mailto:palmerlarryd@yahoo.com)

*Thanks, Larry Palmer*

### West Salish Pond Update

Some of you may have heard that we were finally given permission from the City of Fairview to begin stocking West Salish Pond again. Part of the agreement was to provide a "presence" that would monitor activities, crowd size, use, etc. There is no law enforcement involved; that's for OSP Game Officers to handle.

I realize this may be short notice to ask for help but the decision to actually begin stocking on an agreed-upon date was just finalized a day ago. If anybody has some time to spare, even a couple hours at a time throughout the day, the help would be greatly appreciated. You could probably bring a lounge chair and just hang out observing anglers, while occasionally walking around the pond.

This may be a volunteer need that lasts only the first couple weekends after stocking so we can get a determination on how this renewed fishery will shake out. The first stocking of West Salish Pond with trout is on the calendar for next week, **October 26th**. If you are available to help that following weekend and the next, or perhaps even a weekday or two please let us know.

Let me know if there's any interest in this valuable volunteer opportunity. ODFW, OSP, and ODFW Volunteer presence will play a very important role in our ability to be able to continue stocking in the future at Salish. Please pass the word around the chapter or entire association. We can provide identifying hats and shirts, or you could wear your own NW Steelheaders attire while at the pond.

## State closes Columbia River salmon, steelhead seasons

CLACKAMAS, Ore. – Recreational salmon and steelhead fishing will **close starting Saturday (October 22nd) on the Columbia River from Buoy 10 to the Hwy. 395 Bridge near Pasco, Wash.**, under rules adopted today by fishery managers from Oregon and Washington.

The closure is based on the latest fall Chinook run forecast, which indicates the Upriver Bright component, which includes ESA-listed Snake River wild Chinook, is tracking at 71 percent of the preseason forecast of 579,600 Chinook. Coho salmon and steelhead returns have also been revised downward from pre-season forecasts.

Based on the revised run-size projection, fishery managers estimate that combined non-treaty fisheries have exceeded the allowed harvest limit on Upriver Bright Chinook. The states opted to also close the recreational coho salmon and steelhead seasons to prevent any additional Chinook mortalities that might have occurred as the result of incidental bycatch.

# Grilled Lime Salmon with Avacado-Mango Salsa and Coconut Rice

## Ingredients

### Lime Salmon

4 (6 oz) skinless salmon fillets  
3 Tbsp olive oil, plus more for grill  
2 tsp lime zest  
3 Tbsp fresh lime juice  
3 cloves garlic, crushed  
Salt and freshly ground black pepper, to taste

### Coconut Rice

1 1/2 cups Zico Coconut Water  
1 1/4 cups canned coconut milk  
1 1/2 cups jasmine rice, rinsed well and drained well  
1/2 tsp salt

### Avocado-Mango Salsa

1 large mango, peeled and diced  
1 cup chopped red bell pepper (1/2 large)  
1/4 cup chopped fresh cilantro  
1/3 cup chopped red onion, rinsed under water and drained  
1 large avocado, peeled and diced  
1 Tbsp fresh lime juice  
1 Tbsp olive oil  
1 Tbsp Zico Coconut Water  
Salt and pepper, to taste

## Directions

### For the salmon:

In an 11x7-inch baking dish whisk together olive oil, lime zest, lime juice, garlic and season with salt and pepper to taste (a fair amount of each). Place salmon in baking dish, cover and allow to marinate in refrigerator 15 - 30 minutes, then flip salmon to opposite side and allow to marinate 15 - 30 minutes longer. Preheat a grill over medium-high heat during last 10 minutes of marinating.

Brush grill grates with oil. Place salmon on grill and grill about 3 minutes per side or until just cooked through (turn carefully as the salmon will be fragile).

### For the coconut rice:

While salmon is marinating prepare coconut rice. In a medium saucepan bring coconut water, coconut milk, rice and salt to a full boil. Cover and simmer until liquid has been absorbed (there may be just a little bit of excess liquid in center which you can drain off), about 20 minutes. Fluff with a fork, then let rest 5 minutes.

### For the avocado-mango salsa:

While the salmon is grilling prepare salsa. In a medium bowl toss together mango, bell pepper, cilantro, red onion, avocado, lime juice, olive oil and coconut water. Season with salt and pepper to taste.

Serve salmon warm with coconut rice top with avocado mango salsa.
